## Exploitation

One of the most insidious aspects of the Progressive Democrat strategy is its exploitation of the poor and working class. Progressives claim to be champions of the people, but their policies actually hurt those they claim to help.

For example, Progressive Democrats support policies that increase the cost of living, such as higher taxes and regulations. These policies make it

harder for working families to make ends meet. They also support policies that reduce economic growth, such as increased government spending and borrowing. These policies lead to fewer jobs and lower wages.

Progressives also exploit racial and ethnic tensions to divide Americans. They use identity politics to pit different groups against each other, in order to gain power. This strategy is divisive and harmful to our society.

## **Deception**

Another key aspect of the Progressive Democrat strategy is deception. Progressives often make false or misleading claims in order to gain support for their policies.

For example, Progressives claim that their policies will reduce income inequality. However, their policies actually increase income inequality by redistributing wealth from the middle class to the rich.

Progressives also claim that their policies will protect the environment. However, their policies actually harm the environment by increasing pollution and destroying jobs.

Progressives are willing to say anything to get elected, even if it means deceiving the American people.

## **Power**

The ultimate goal of the Progressive Democrat strategy is to gain and maintain power. Progressives believe that they are the only ones who can solve the problems facing our country. They believe that they are entitled to rule, and that anyone who disagrees with them is an enemy.

Progressives use their power to silence dissent and suppress opposition. They use the media to spread their propaganda and control the narrative. They use the government to punish their enemies and reward their allies.

Progressives are a threat to our democracy. They are willing to do whatever it takes to gain and maintain power, even if it means destroying our country.

## **How to Fight Back**

We must expose the Progressive Democrat strategy of exploitation, deception, and power. We must educate ourselves and others about the dangers of their agenda. We must support candidates who will fight for our values.

We must also be willing to stand up to Progressives and hold them accountable for their actions. We must not let them divide us or silence our voices.

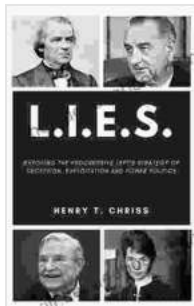

The future of our country is at stake. We must fight back against the Progressive Democrat strategy of exploitation, deception, and power before it is too late.

Here are some specific actions you can take to fight back:

- Educate yourself and others about the dangers of Progressive Democrat policies.
- Support candidates who will fight for our values.
- Stand up to Progressives and hold them accountable for their actions.
- Get involved in your community and make your voice heard.

- Pray for our country and for God's guidance in this fight.

We can defeat the Progressive Democrat strategy of exploitation, deception, and power. But we must act now.
