In her book 'Trump: The American Moses,' Anna Schober argues that Donald Trump is a modern-day Moses, leading the United States out of its current state of political and social turmoil. Schober's theory is based on a number of parallels between Trump and Moses, including their shared experiences as outsiders, their ability to connect with the masses, and their willingness to challenge the status quo.

Schober writes that Trump, like Moses, is an outsider who has come to power in a time of great turmoil. Both men were born into wealthy families, but they both rejected the expectations that were placed on them. Trump became a successful businessman, while Moses became a leader of the Israelites. Both men also faced opposition from the establishment, but they were both able to overcome these obstacles and achieve their goals.

Schober also argues that Trump, like Moses, has a unique ability to connect with the masses. Both men are charismatic leaders who are able to inspire people to follow them. Trump's supporters are often drawn to his outsider status and his willingness to speak his mind. Moses' followers were also drawn to his leadership, and they believed that he was the one who could lead them to the Promised Land.

Finally, Schober argues that Trump, like Moses, is willing to challenge the status quo. Both men are willing to take risks and to make changes that they believe are necessary. Trump has made a number of changes to the United States, including withdrawing from the Paris Climate Agreement and imposing tariffs on goods from China. Moses also made a number of changes to the Israelites, including leading them out of slavery and giving them the Ten Commandments.

Schober's theory has been met with criticism from both religious and political commentators. Some religious commentators have argued that it is a dangerous comparison to make between Trump and Moses. They believe that Trump is not a religious man, and that he does not share the same values as Moses. Some political commentators have also criticized Schober's theory, arguing that it is a misguided comparison. They believe that Trump is not a leader who is worthy of being compared to Moses.

Despite the criticism, Schober's theory remains a popular one among Trump's supporters. They believe that Trump is a modern-day Moses who is leading the United States out of its current state of turmoil. Only time will tell whether Schober's theory is correct, but it is certainly a thought-provoking one.

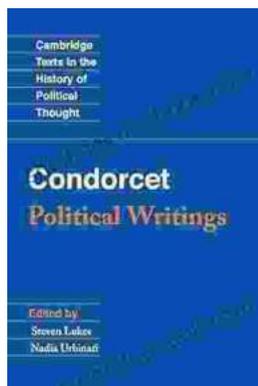

Anna Schober's theory that Donald Trump is a modern-day Moses is a controversial one. There are many parallels between Trump and Moses, but there are also many differences. Whether or not Trump is a Moses figure is a matter of opinion. However, Schober's theory is a fascinating one that provides a new perspective on Trump's presidency.
